

Friday 19th September

Dear Parents and Carers,

I am writing to you today regarding a serious incident that recently took place in our local community, outside of school. We have been made aware that a parent from our school was subjected to racial and verbal abuse by a tradesman. I am sure you will be a concerned as I am about the current political climate which appears to give a green light for this kind of abhorrent behaviour.

This kind of behaviour goes against everything we stand for as a school. Our values are built on respect, compassion and being open-minded and we strongly condemn all forms of racism and abuse. No member of our school community should ever feel unsafe or targeted because of who they are.

As a school, we are committed to supporting our families and working together to ensure that everyone in our community feels valued and respected. If you witness or experience any similar incidents, we ask that you please report them to us so that we can provide support and take the appropriate steps to safeguard our community.

Thank you for your continued support in upholding the values that make our school a special, safe and welcoming place for everyone.

Kind regards

Mr Marston
